*To be the best we can be.*

## Weekly Learning Review - Year 1 16.10.20

In maths this week we have been comparing numbers using the terms; greater than, less than and equal to. We have also been ordering three numbers from smallest to greatest and from greatest to smallest.

In English this week have been reading and writing information texts based on the human and physical features of The Isle of Coll. The children have written some fantastic fact files.

### Other:

- We have learned about human and physical features of the environment
- We have made maps and added keys to show the different features
- We have continued to explore seasonal change through our Autumn leaf dance sessions

We are so proud of the year 1 children, they have had a fantastic first half term back at school. They have made much progress and have worked, played and followed the new routines with such fun and maturity.

We wish you all a happy half term and look forward to the next half term with your children.
